

The map displays the Sulz region with seven distinct clusters of points, each representing a different group. The clusters are numbered 1 through 7 and color-coded as follows: 1 (red), 2 (blue), 3 (green), 4 (purple), 5 (orange), 6 (yellow), and 7 (brown). The map shows a network of streets, including major roads like HUEBWISSEN, AUSTRASSE, and NEUGUTSTRASSE, as well as local residential streets. Green areas represent parks or undeveloped land, while grey areas represent built-up zones. The points are densely packed in certain areas, particularly in the red (1) and orange (5) clusters, and more sparsely distributed in others like the yellow (6) cluster.
